The Urban Core Overlay (UC Overlay) District: is established to create developments of dense, vibrant, mixed-use neighborhoods that encourage a quality pedestrian experience. The UC achieves this goal for urban cores by requiring consistent street walls, pedestrian-oriented building features, and screening of off-street parking and service drives that minimize conflicts between vehicles and pedestrians areas. For a full description of the Urban Core Overlay District you can go to the American Legal Publishing website (Section 348.05) <https://goo.gl/xZ8Lej>

Area District – 'K' allows for a maximum gross floor area of residential buildings to be equal to 6 times the total lot area. 'E' allows for a maximum gross floor area of residential buildings to be equal to 1 ½ times the total lot area.

Height District – Height District '5' allows a maximum height of 250 feet, the '3' Height District allows a maximum height of 115 feet and , the '4' Height District allows a maximum height of 175 feet.

NOTE: If this proposed zoning change becomes effective, the law requires that the legal use of all existing buildings in the area be allowed to remain, but there can be no additions or expansions of those uses made nonconforming by this change without a special permit from the Board of Zoning Appeals.
